

ST JOHN'S
BEAUMONT

STATEMENT OF BOARDING PRINCIPLES

St John's Beaumont aims to provide a caring, supportive and positive environment where our students may flourish and fulfil their potential academically, artistically, spiritually, socially and emotionally in all areas of their school life.

Pastoral care for the individual, known by the Jesuit term *cura personalis* is central to the way the school and the boarding community operates.

Within the boarding community we:

- Promote the full growth of each individual in the Jesuit tradition and urge boarders to develop self-discipline, initiative and integrity;
- Encourage all our pupils to embrace School Chapel and the Spiritual Life of the School
- Follow the Jesuit ideal of forming people who are well-rounded, intellectually competent, open to growth, religious, loving, and committed to doing justice in generous service to the people of God;
- Encourage each boarder to excel and to achieve his potential in all aspects of their lives at St John's Beaumont;
- Encourage each boarder to become a leader in service and to work for the benefit of others;
- Create an ambience of tolerance, openness and trust;
- Develop boarders' responsibility for self, for others and for his environment;
- Safeguard and promote the welfare of each boarder.
